SKILLS

- Python
- MySQL
- Django, Flask
- Git, GitHub
- NumPy, Pandas
- Matplotlib,, Power BI
- Machine Learning
- Selenium, Functional Automation
- Manual Testing, Functional Testing
- API Testing with Postman
- HTML, CSS
- JavaScript

CERTIFICATIONS

- Google Certificates: Data for Exploration
- Foundation: Data Everywhere
- Spiders: Python, SQL, Selenium, Manual Testing

EDUCATION

- Bachelor of engineering
KLE Institute of Technology Hubli
2017 JUNE - 2020 AUG

PROFILE

Skilled Python Developer presently working on full-stack web development to enhance knowledge. Specializes in automating user interfaces and creating efficient data-driven solutions using Pandas, NumPy, and Selenium. Collaborates effectively to enhance software performance and streamline workflows, boosting productivity and minimizing errors. Passionate about applying skills in data analysis and data science

WORK EXPERIENCE

Applic Solutions Co. | Eximietas Design

APRIL 23, 2023, TO APRIL 8, 2024

- Designed, developed, and maintained automated test scripts using Python, enhancing testing efficiency and reliability.
- Built test frameworks and tools to support test automation, improving test coverage and accuracy.
- Collaborated with QA engineers and developers to create comprehensive test plans, execute scripts, and analyze results to identify defects and improvements.
- Reported and tracked defects, working closely with the development team for timely resolution.
- Integrated automated tests into the CI/CD pipeline for continuous testing and delivery, monitoring and maintaining test environments and data.
- Optimized test automation processes for enhanced efficiency and effectiveness.
- Worked closely with cross-functional teams to ensure high-quality software releases, participated in code reviews, and contributed to team knowledge sharing.
- Stayed updated with industry trends, continuously improved automation frameworks and tools, and proposed innovative solutions to enhance test coverage and efficiency.

Personal Projects

- Comprehensive Data Analysis: Power BI Dashboard, Seaborn, Matplotlib
- Sonar Rock vs Mine Prediction: An End-to-End Machine Learning Project
- Diabetes Prediction,LLM Chatbot using Google's Gemini Pro with Streamlit .End-to-End Power BI Dashboard Project,Data Analysis and Visualization: Using Seaborn
